

#EnvisionCares

Show your appreciation for Envision frontline clinicians on social media by sending them a message of gratitude and thanks for their hard work and sacrifice during this healthcare crisis.

Sharing your gratitude only takes a few minutes, yet it means so much to our colleagues on the frontline. Here's how:

1. Write a message, take a picture, film a video, have your kids draw pictures, or whatever moves you.
2. Post your message and accompanying picture or video on your **Facebook**, **Twitter** or **LinkedIn** profile.
NOTE: If you are sharing from a private profile, your message will be hidden. Please make your post public so people can see it.
3. Make sure you include **#EnvisionCares**. This hashtag will collect all your messages and will allow us to share them with our clinicians.

Sharing with Clinicians

Over the coming weeks, we will pull these messages and share them using a few different methods:

- The [Gratitude Gallery](#) on the COVID-19 landing page
- Envision social media feeds
- Emails, videos, materials and more
